ATLANTA CITY DIRECTORY,

Gentlemen:

In compliance with your request for my experience as to the value of the City Directory as an Advertising Medium, beg to say that, I have used a page adv. for the last three years, and have ample results from it to justify my continuing to carry it.

I have found it to be a good investment.

Wishing you success

I am respectfully,

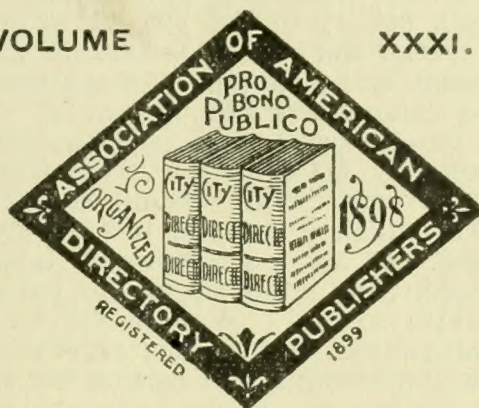

MRS. B. L. SMITH, Prop.

Foreword.

In this, the thirty-first volume of the Atlanta City Directory, is furnished a concrete history of the city of Atlanta, for the past year; showing in detail her very remarkable growth in population and advancement along the lines of material wealth, educational, artistic and commercial life.

Never before in our history has so much public and private improvement been actually made in the same length of time, and never before were so many improvements projected as there are right now, for all of which we should feel deeply grateful to the beneficent Providence and divine Creator and Ruler of our destinies.

While we have many and great causes for pardonable pride and earnest gratitude, still we have some causes for complaint, chief of which is the antiquated, burdensome, expensive and wholly unscientific system of numbering the houses on our streets.

In this, the most modern city in the South, we are using a house-numbering system, that has been discarded years ago by nearly every town and city in the South and in the Union, as being out of harmony with the requirements of modern business conditions; it is costing our merchants thousands of dollars yearly in time lost by their employees looking up addresses for the delivery of goods, and causes endless confusion, annoyance, loss of time and temper to our citizens and every visitor that comes within our gates, because at present a number conveys to the mind no clear idea of location or distance.

The centenary or 100 numbers to the block system (the one used by the big office buildings) will overcome all these troubles, and conditions will force this system upon the city some day, it will cost more to make next year than it will this; therefore we call upon the Mayor and Council to investigate this suggestion at the earliest possible moment.

POPULATION.

There are 49,383 names in this book, using a multiple of 3 & 1-5 to each name, gives a population of 158,026 or 8776 more than 1906; of this number we estimate that 116,000 reside within the corporate city limits, and 42,000 within the boundaries canvassed by us and reached by street car service, exclusive of the Marietta line beyond the river.

Of the 49,383 names about 16,000 of them carry the wife's name thereby making 65,000 names actually in the book.

We desire to thank those citizens generally, and employers of labor in particular, who have so kindly and generously given our representatives full and complete information regarding themselves and employees, for without their co-operation we could not produce a book that would be of much service.

We assume that everybody realizes how vitally important it is that each and every citizen, no matter how humble, should be correctly chronicled in the city directory, a thing that costs them nothing but may be of immense value in case of accidents, telegrams, letters, inquiries of relatives, delivery of goods or the many unexpected conditions that arise in the course of human events, in fact, a person who neglects to have correct and complete information accorded to himself places himself, his friends and all whom he has dealings with at a serious and sometimes costly disadvantage.

It saves time in closing transactions.

It makes land a security as available as stocks or bonds.

It prevents absolutely any loss from defective title or from liens or incumbrances charging the property.

It is the only safeguard against loss from fraud, forgery, disability, error of record or mistake of law or fact.

MAKERS OF ATLANTA

Real Estate Section

As real estate is the basis for taxes, individual credit and general prosperity, it is fitting that we should give it precedence over all other lines of human activity.

There is a story current that to Atlanta belongs the distinction of being the first city in the Union in which an exclusive real estate business was started; and the man who started it was one of our most beloved and highly esteemed citizens; a man whom we all honored; whose life and methods we hope all who follow in his footsteps will endeavor to emulate,—the late Col. George W. Adair.

The men whose names follow are representatives of the highest type of our citizens; and we feel confident that future or present owners of real estate will receive fair and square treatment from each and every one of them.

Great fortunes have been made in Atlanta real estate in the past, and still greater ones are in store for future purchasers because Atlanta has only just begun to grow, and values are increasing daily. The building permits issued to November 30, 1906, aggregate in money over one million dollars more than for the entire year of 1905.

If you have something to rent or lease, or want to rent or lease, call and make your wants known, and if we haven't got it we will get it. Try our system of doing a renting business and we will guarantee you satisfaction and results.

If you have city property that you would like to exchange for good farming land, we can locate you in any county in the State of Georgia. We have farms for sale, all sizes and all prices, also good mill sites and several water power propositions.

If it's a hotel or factory site, or business property of any kind on small investments, or a nice home, we have it and would be glad to have you call and look over our list.

A word about timber land in south Georgia and Florida. There are still a few more opportunities to make quick fortunes by investing money in these valuable lands, as the prices continue to go up. For instance, we will sell you 1000 acres of land located near Jacksonville, Florida, just over the line of Georgia, for \$3.00 per acre. You can get your money back out of the turpentine, again out of the timber, and the land will be worth \$5.00 per acre for farming purposes. Think for a moment and see if you can figure where you can put your money that will make you a larger profit in three years, than in a proposition of this kind. South Georgia land that sold six years ago for \$1.00 per acre is being sold this year, after the timber was removed, from \$7.00 to \$15.00 per acre. You, no doubt, have always had friends that made great profits in timber lands. There still remain just as good opportunities for you. If you are interested and want any information, please call and let us show you over our list.

ATLANTA CITY DIRECTORY,

Gentlemen:

In compliance with your request for my experience as to the value of the City Directory as an Advertising Medium, beg to say that, I have used a page adv. for the last three years, and have ample results from it to justify my continuing to carry it.

I have found it to be a good investment.

Wishing you success,

I am respectfully,

Pupils Prepared for College and Special Examinations

— 608 Lowndes Building —

Since the instruction is really individual, not just small classes, students can carry on a full course in one-third of ordinary school hours, saving the rest for other work.

In any one study, three times as much can be accomplished as with the same work in a class.

Hours may be chosen to suit, and the work adapted to individual needs.

Long experience and continued success in this specialty furnish the best references.

Wurtzburger Malt Extract

It is a pure, healthful, non-intoxicating stimulant
made from the best malt and barley.

DR. J. G. EARNEST.

Atlanta, Ga., March 25, 1905.

Wurtzburger Malt Extract Co., Atlanta, Ga.

Dear Sirs :—The Malt Extracts are esteemed most valuable tissue builders by the medical profession. I have had considerable experience with the Wurtzburger Malt Extract, and believe it to be fully equal to any of the imported brands. I have in many instances seen marked benefit when used by nursing women to increase the flow of milk and in cases of chronic wasting diseases.

Respectfully,

JNO. G. EARNEST.

DR. WM. PERRIN NICHOLSON.

Atlanta, Ga., March 18, 1905.

Wurtzburger Malt Extract Co.

Gentlemen:—In response to your inquiry in reference to my experience in the use of your Malt Extract, I take great pleasure in testifying to its great value as a general tonic, especially in the weakness of convalescence. I have used it freely in my practice and know of no similar preparation that possesses more excellence.

Yours very truly,

WM. PERRIN NICHOLSON.

Your Bank Account

The most vital part of any business should be protected by the best safeguard.

It is more important to insure the money we have earned than the property we expect to turn into money.

The PROTECTOGRAPH stamps a line like this :

NOT OVER TEN DOLLARS \$10\$

and with hundreds of sharp little teeth that bite right into the paper a specially prepared and strictly indelible ink is forced into the very fibre.

The PROTECTOGRAPH is a model of mechanical ingenuity, handsomely finished and an ornament to any office. It is employed by 80 per cent. of American Banks, the United States Treasury and thousands of business houses.
